

Whitebox Rails Assessment App

Author: Chris Kinoti

Problem:

- “Make a rails app to handle projects and tasks.
- A logged-in user can create projects, create tasks on it and assign the tasks to people.
- Please feel free to add any functionality as per your choice
- **We would love to see some tests “

Solution

Editing Profile

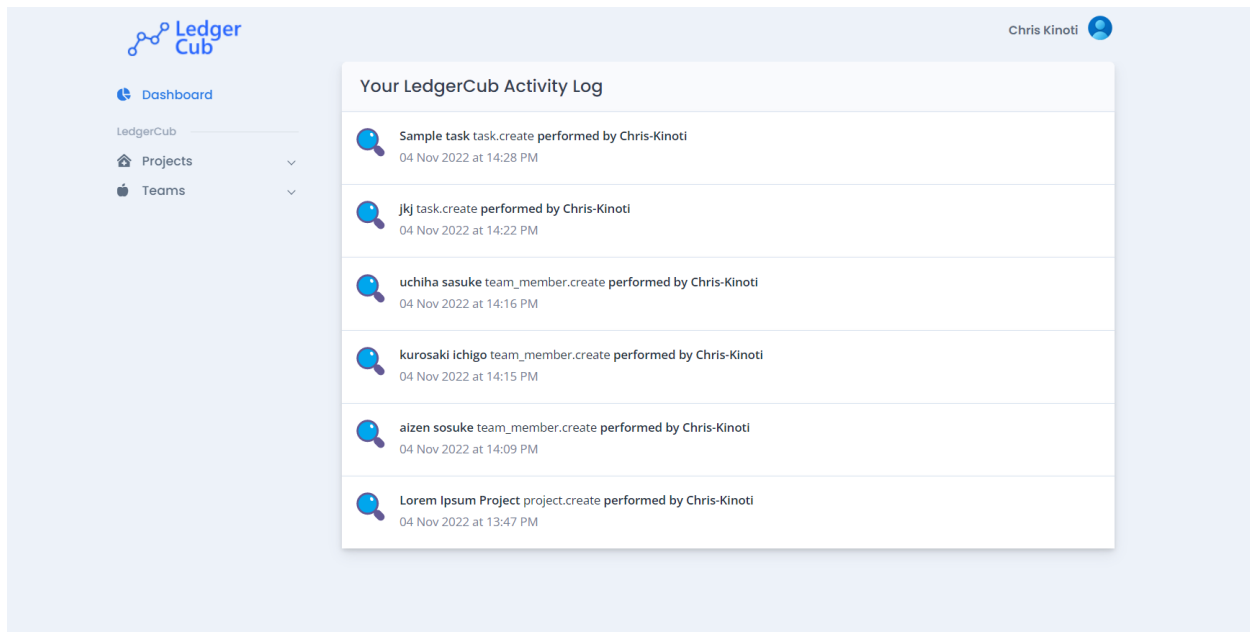

Profile Form

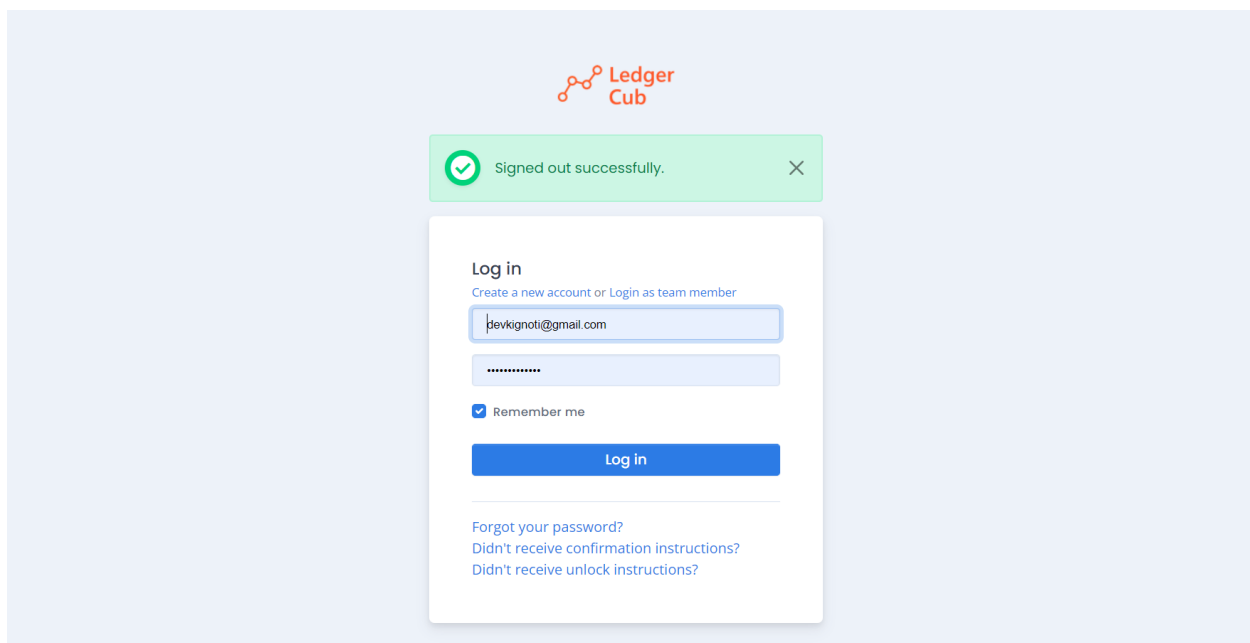

The screenshot shows the 'Profile Form' for user Chris Kinoti. The sidebar is identical to the previous screenshot. The main content area is titled 'Kinoti' and contains a form with the following fields and sections:

- Email:** A text input field containing 'devkinoti@gmail.com'.
- Password:** A text input field with the placeholder text '(leave blank if you don't want to change it)'. Below it, a note states '6 characters minimum'.
- Password confirmation:** A text input field.
- Current password:** A text input field with the placeholder text '(we need your current password to confirm your changes)'.
- Update:** A blue button to submit the form.
- Danger Zone:** A section containing the text 'Delete my account' and a warning: 'Once you delete a account, there is no going back. Please be certain.' Below this is a red button labeled 'Delete my account'.
